# Modern learning environment

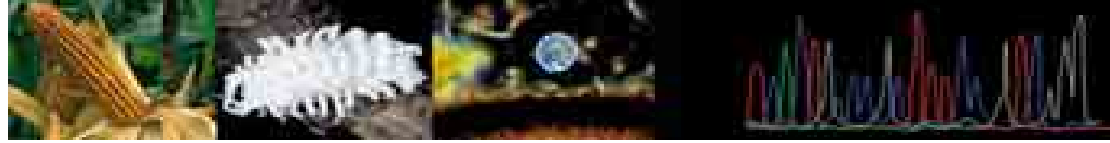

## Aims

- Facilitate the ICT support for other subject areas
- Solve pedagogical and technical problems
- Get a clear picture of ICT tools being used
- Formulate pedagogical and technical guidelines

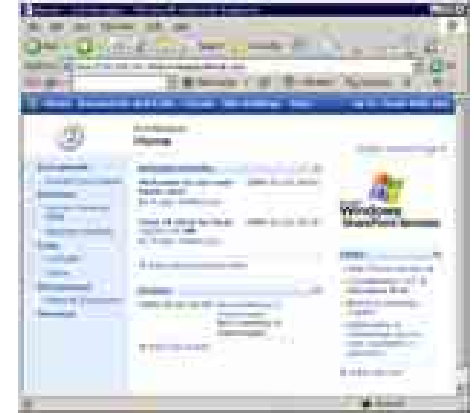

## Challenges to be met are mainly

- Didactical
- Technical
- Organizational

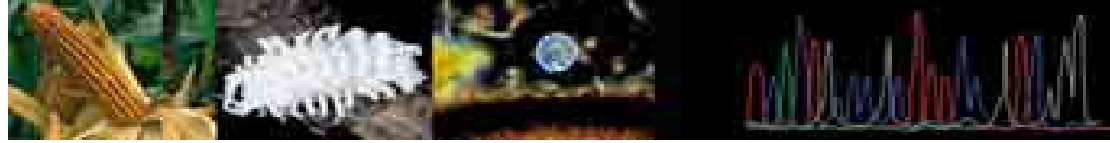

## Ways of working:

- Physical as well as virtual meetings
- workshops for in-depth exchange of information, hands-on activities and prolonged discussions
- assign tasks to individual members
- personal contacts with local subject area members as well as student representatives

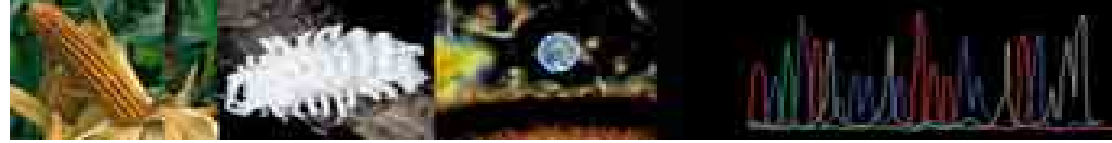

## Present situation

- Overviews and fact sheets about ICT tools available
- ICT infrastructure has improved!  
*(but still a lot of improvement needed!)*

<b>Student information system</b>	<b>LMS</b>	<b>Desk-top video</b>	<b>Room based video</b>	<b>E-valuation</b>	<b>University</b>
Yes, integrated	Yes	Yes	Yes	Yes Obligatory	<b>SLU</b>

Yes, integrated	Yes	No	Yes	Yes	<b>CUA</b>
Yes, integrated	Yes	Not yet	Not yet	Yes	<b>SGGW</b>

## Present situation (cont.)

- Manuals produced for desk-top video (e.g. C2M and Breeze)
- Didactical scenarios has been produced for PBL-on line
- From small scale test to whole courses (40-50 students)
- Focus will change from video towards other ICT support system and development of more pedagogical scenarios, teacher training, evaluation and improvement

Thank you!  
Dziękuję!
